Great News! Your building now has a website portal. **Profile Link** provides you secure online access to the latest strata meeting minutes, bylaws, insurance and other important documents. There is also a Calendar of Events for your building. You will have the ability to change your information (phone number, email, emergency contact numbers, etc.) online, and receive email notification of new documents as they are added to the site. Even better you can access this information from your desktop, tablet or smart phone.

As we move forward we will be working to enhance your experience by providing additional capabilities including the ability to view your account statement.

To access **Profile Link**, just type **profilelink.ca** into your web browser and you will be guided through the registration process. In order to register, you will need to have a recent version of Internet Explorer, Safari or Chrome and you must enter the email address we have on file for you. If you do not have an email address on file, or if you think your email address is not current, please contact our office at tgoodes@profile-properties.com or 604-464-7548.

So get started now to see what a difference connected living can make!
